# 8 port ethernet switch 10/100/1000 MBPS

## General information

This 8-port 10/100/1000 network switch enables you to easily connect multiple computers to a network. It is also a very convenient solution in case all the ports of your (wireless) router are busy and you still want to connect an extra network device. The switch also makes sure that all ports have a constant speed of 1000 Mbps for an optimal exchange of MP3 files, photos, etc. within your network.
